

## Unlimited Possibilities, Inc.

### COVID-19 Precautions Day Program Reopening Plan

- Unlimited Possibilities will implement the COVID-19 WV IDD WAIVER REOPENING PLAN—JULY 16, 2020.
- In addition to this state plan, Unlimited Possibilities will have a check in station that all staff and members must utilize upon arrival to the center. Hand sanitizing stations are available at every entrance and exit. Everyone is expected to use them when you enter, exit and though out the day. This is in addition to hand washing.
- Everyone must wear a mask in the building and in a vehicle transporting a member. The exception is when eating or drinking. A member is only required to mask if they can physically put on and remove the mask independently. We will be able to take mask breaks outside when properly social distanced from others.
- When staff picks up a member from their home, the member's guardian/caregiver will have completed the Daily Screening Form, including temperature check and hand it to staff before the member may enter staff's car. The member's temperature must be 100.4° or lower without fever reducing medications within the past 6 hours of the temperature check. The member must be free from having any COVID symptoms.
- Upon arrival at the Day Program staff will check in both themselves and the member including another temperature check before they can enter the facility.
- Should the member have a fever higher than 100.4° or have COVID-19 symptoms at any point during the day that member will wait in a waiting room until that member's guardian/caregiver can pick up the member. If a member is not picked up in a timely manner, it can impede the member from being about to return to Day Program.
- Should the facility have to quarantine due to exposure to COVID-19, staff may provide Day Program service in the member's home.
